

#### Loic Eloy

President, Mirion Technologies

## Vital Protection. Transformative Potential.™

**245** Attendees

10 Industries

**36** States

**12** Countries

#### New Products

#### Vital Protection. Transformative Potential. Easier Access

**Customer Commitment** 

#### New Product Introductions

Release of 8 New Products & Robust Development Pipeline

### Sirius<sup>™</sup>-5 Compact Monitor

Hand & Foot Contamination Monitoring in a Small Footprint

Builds on the legacy of the Sirus™-5 Monitor.

- Delivers thorough and reliable detection of external contamination on the hands and feet of personnel working in nuclear environments
- Compact footprint

# Integrated Dosimetry and Contamination Systems

**Smart Solutions for Radiation Monitoring** 

Integration of contamination and clearance monitors with Mirion personal dosimetry solutions.

 A holistic view of potential contamination at Radiologically Controlled Area exits

DMC 3000<sup>™</sup> Personal Electronic Dosimeter and LDM 320W Dosimeter Reader

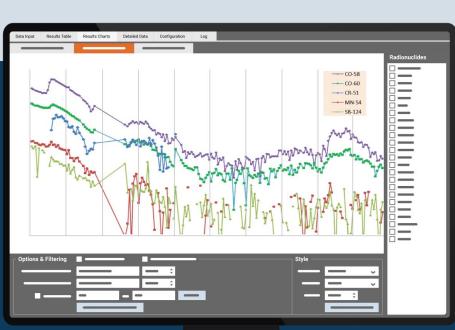

Sirius<sup>™</sup>-5 & Sirius-5<sup>™</sup> Compact Hand, Cuff and Foot Surface Contamination Monitors

#### Continuous or Triggered Spectroscopic Monitoring Platform

Continuous spectroscopic monitoring solution designed to provide valuable insights to site operators and maintenance personnel.

- Integrates Genie<sup>™</sup> software for detailed spectral analysis
- Provides nuclide identification and quantification with continuous trend monitoring
- Allows for simultaneous multi-analysis with variable count times, libraries, and parameters

#### Aegis™

#### Portable HPGe Spectrometer

The latest transportable, battery-powered HPGe gamma spectrometer in Mirion's portfolio.

- New firmware enables automated continued spectroscopic monitoring (CSM)
- Remotely controlled via a wired or wireless connection
- Allows high resolution spectroscopy measurements to be made from a safe, comfortable location

#### Apex-Gamma™

Lab Productivity Suite

Upon its initial release, the Apex-Gamma Lab Productivity Suite broke the mold of conventional gamma spec operations.

 Apex-Gamma V1.5.1 is the first to use Genie<sup>™</sup> Version 4.0, which represents a significant update to Mirion's trusted Spectroscopy software platform

#### Apex-Alpha/Beta™

**Counting Productivity Software** 

Purpose-built for laboratories, Apex-Alpha/Beta Software simplifies tasks related to Mirion's low background alpha/beta counting systems.

 Streamlines low background alpha/beta counting processes for fast, accurate sample analysis

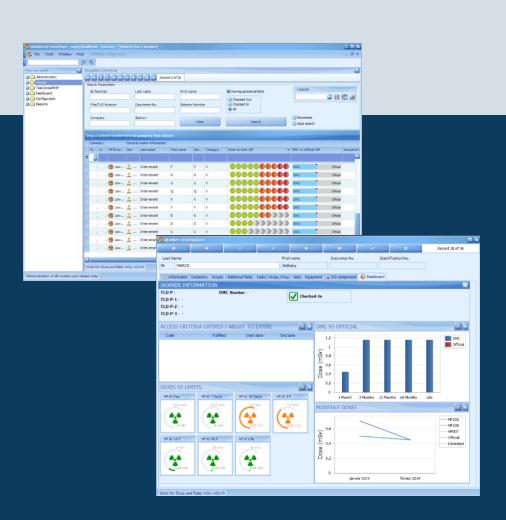

#### DosiServ<sup>™</sup> Software

#### Health Physics & Dose Management Solution

New feature enhancements for the DosiServe integrated state-of-the-art dose management system.

- New features:
  - C&C integration
  - Dashboard
  - Automatic reports

### LightLink™ Technology

**Next-Generation Core Technology** 

Improved light collection, robust silicon photomultipliers & latest in readout electronics.

- Enhancing a wide range of products ranging from handheld devices to contamination monitors
- Improves industry standards in productivity & reliability
- Supports Health Physics daily duties

#### Easier Access

Introducing eCommerce & Enhanced Account Support

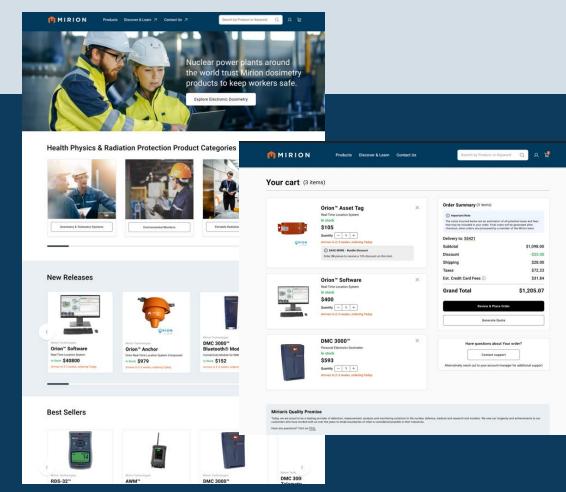

#### eCommerce

#### Health Physics Solutions for US Customers

Convenient, always-open location to discover products, place orders and get order updates for Health Physics solutions.

- User-friendly platform
- In-stock availability information
- Order tracking

#### Account Management

Augmenting the North America Commercial Team

Adding resources to enhance sales support and responsiveness for customers throughout North America.

- Move from territory to account-based
- Additional human and system resources for improved customer experience
- Progressive roll-out over next 6 months

#### **Customer Commitment**

Programs & Services

#### i

#### **Customer Services**

#### Maximizing Productivity Across Industries

Our extensive network of experts can provide local operational support, technical support, and a wide range of consulting services.

- Consulting & advisory services
- Installation & customization
- Software & hardware support
- Virtual & In-person training

#### JUNE-DECEMBER 2024

#### **Open Enrollment Training Classes**

Virtual and in-person options available. Classes run from 8:30am ET to 4:30pm ET

### Mirion Educational Program

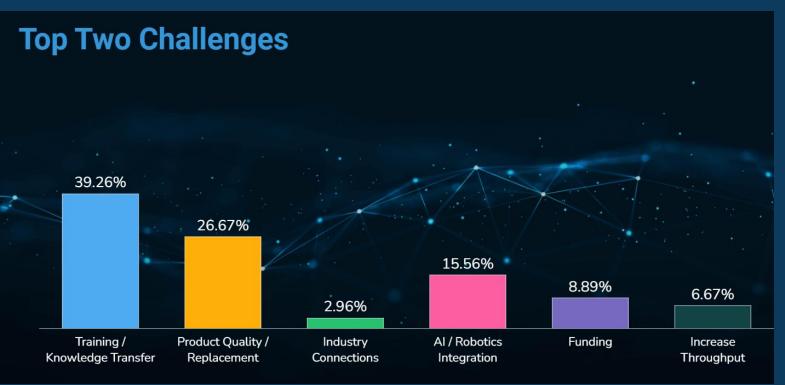

for Genie<sup>™</sup> Software

To make spectroscopy more accessible to educators, Mirion will provide solutions free-of-charge **annually** to qualifying institutions.

- Genie Spectroscopy Software
- ISOCS™ Sourceless Efficiency Calibration Software
- Supports courses in: Nuclear Engineering, Intro & Advanced Physics, and select programs General Science, Chemistry, Geology & Radiopharmaceutical studies

## In Closing, Our Commitment to You

## MIRION Connect 24 Annual Users' Conference
